

ChargePoint Network Flex Billing Manager and Flex Billing Service

ESTABLISH FOR-FEE ACCESS TO CHARGEPOINT CHARGING STATIONS

Coulomb Technologies' ChargePoint Network Software Applications and Services make it easy to manage and maintain ChargePoint Charging Stations for every business need. The ChargePoint Network Flex Billing Manager provides charging station owners the tools to set pricing for fee-based charging station access. When combined with the Flex Billing Service, station owners can automatically bill and process payments from drivers who access their stations.

Establish pricing

You choose if your charging stations are accessed for free, or for a fee. The Flex Billing Manager allows you to set pricing on a per time basis (similar to a parking meter). You can offer free or reduced price "park and charge" services for preferred customers during business hours, fee-based parking outside of business hours, or vary fees based on individuals or by groups.

Set payment option

You choose how customers pay for access to your charging station. A ChargePoint Networked Charging Station will accept multiple payment options including ChargePass™ cards, major contactless credit cards, and a 24/7 toll-free telephone call for other major credit cards. The charging stations will only energize for an authorized driver eliminating energy theft, and enhancing safety.

Automatically process payment

With the ChargePoint Network Flex Billing Service, ChargePass and credit cards are processed immediately, and funds are automatically transferred from a driver's account to the charging station owner's business account. Transaction data can be centrally monitored via the Flex Billing Manager and can be exported to other accounting systems to help you manage your return on investment.

FLEX BILLING MANAGER FEATURE LIST

Feature	Description
User/Group-Specific Pricing	Configure one price for everyone, or choose to exempt certain users (e.g., your fleet vehicles, your employees) from usage fees or provide discounts for certain users (e.g., loyalty discounts).
Time/Day-Specific Pricing	Configure one price for all times and days, or choose to vary pricing as a function of Time of Day or Day of Week (weekday, weekend, Holiday).

FLEX BILLING SERVICE FEATURE LIST

Feature	Description
Fund transfer	Station users are automatically billed. Funds are transferred monthly to station owner's account

ABOUT COULOMB TECHNOLOGIES

Coulomb Technologies' ChargePoint® Network is the most advanced, easy to use electric vehicle charging infrastructure for municipalities, businesses and utilities. Electric Vehicle (EV) charging is delivered via ChargePoint® Networked Charging Stations which cover the entire range of Level I, Level II, and Level III electric vehicle charging needs. The ChargePoint Network provides station owners a centralized view of the charging stations anywhere there is Internet connectivity. Web-based ChargePoint Network Software Application Services make it easy to provision, manage and maintain ChargePoint Charging Stations for every business need.
